

SE Sovent® | Tite-Ruff® Sample Specifications

General:

Provide SE Sovent® (SESCO) Tite-Ruff® Aerators, Deaerators and related components as distributed by Walter Cornwall, Inc. (954) 785-0508. Install system in compliance with the plumbing construction documents, installation details and recommendations in the SE Sovent® (SESCO) Design manual 101lo (or latest edition). Follow all recommendations regarding the use of 1.6GPF Water closets and cloths washer applications.

Materials:

Aerator and Deaerator fittings shall be made in compliance with standard ASME/ANSI B16.45. Fittings shall be manufactured with the "Dismatic" method of casting production. Fittings shall be gray cast iron of chemical composition in accord with ASTM-126 and CISPI 301-00 for hubless pipe and fittings.

Installation:

Install SE Sovent® (SESCO) Tite-Ruff® system in accordance to Design manual 101lo and follow piping recommendations for 1.6 GPF water closets and cloths washing machine wastes. See other specification section for supports, hangers, fire rated pipe penetrations and related DWV requirements.
